## Projects Worked

### Wizroots:

url: <https://wizroots.com>

This is our own company website. In this project my role was to own UI integrations. The tasks included designing the user flow from the UI side and implementing it. For this, we have used Angular 5, Email Triggering, JS & CSS3. HTMLs were developed for templates and components, I also owned the bug fixing of this project from the UI side.

### CAMP Mediation:

url: <http://www.campmediation.in>

CAMP is a centre for Advanced Mediation Practice.

This is a wordpress project I worked on

Based on their requirements developed every pages in CAMP mediation

### Test Maker:

url: <https://testmaker.in>

TestMaker is an online test conducting tool.

We can create and distribute our test online and we can get the result instantly.

This is one of our company product. For this, we have used ReactJS, Redux state management & SASS. HTMLs were developed for templates and components, In this project my role was to own UI integrations. The tasks included designing the user flow from the UI side and implementing it. I also owned the bug fixing of this project from the UI side.

### Near.Store:

url: <https://near.store>

Near.Store is an ecommerce shopping website.

This will show you the nearby shop from your current location.

We have created a new mobile view using Handlebars & SASS, Designs provided by the clients.

Integrated Google Tag Manager for users tracking.

I also owned the bug fixing of this project from the UI side.

### Valeo:

url: <https://bevaleo.me>

Valeo is a health control app for tracking our health in daily basis

We have used ReactJS, Redux state management & SASS. HTMLs were developed for templates and components, I also owned the bug fixing of this project from the UI side.

## POC Projects

Some POC Projects worked in UI part

**Aircraft:** <http://reflectivetech.in/aircraft>

**Genie:** <http://reflectivetech.in/genie>

**Vega:** <http://reflectivetech.in/vega/demo.html>

**HeyBlue:** <https://sathishvasi.github.io/HeyBlue>

**Esprit:** <http://esprit.neoastra.com>

## Projects worked in Adobe

**Humana** – Developed UI part in HandlebarJS with the reference of XD designs.

**Ernst & Young (EY)** – Worked in UI part & Integration with AEM

**Unilever** – Created HTML/CSS (POC project) with the integration of AEM

**Rite-aid** – HTML/CSS Development as component wise, Technology: GulpJS, Handlebar, SASS

**Brand Copywriting Tool** – Designed XD design as per the requirement and developed HTML/CSS from the created design (Hosted UI in my personal repo - <https://sathishvasi.github.io/BrandTool>)

**Studio Kohler** – HTML/CSS Development in AEM, Technology: Handlebar

**Prada** – Bug Fixes in existing project, Technology: Vue

## Methodologies & Practices

BEM standards in HTML, Unobtrusive JavaScript, Progressive Enhancement, Agile Development.
